

Input specifications

Yachts - Interior

1. **Cross section drawings or 3D models**

2D/3D Cad drawings in DWG, DXF, Rhino or PDF

Line drawings of floor layout, sections (left, right, front, rear), ceiling and light plan.

Hand drawn sketches, marker impressions and drawings of details.

Photos of reference interiors.

2. **Materials to be used /Paint colors**

(Manufacturer name, color name or number) Woods, Fabrics, Floor/carpet etc. This can be a mood board, real material samples or just sample images showing the material look.

3. **Furniture.**

To make the impressions as realistic as possible we would like to receive as much information as possible about the preferred furniture. Preferably a preview image and the link to the manufacturer's website. Alternatively furniture can be chosen from 3d stock website <http://www.designconnected.com>

4. **Camera angles:**

This can be drawn on top of a floorplan, screen dumps from your own drawing software or pictures from existing interiors showing the preferred camera angles.

5. **Wheel house/Helm station**

For a visualization of these spaces we are happy to receive as much information as possible on the instrument panel. Website of the supplier, a digital brochure or photography of similar instruments.
